iQnovate Ltd to acquire stake in creative agency

iQnovate Ltd, a member of the iQ Group Global, is proud to announce it has signed an Agreement in Principal to acquire 50 percent of creative agency, Emedia Creative Pty Ltd.

It has been further agreed that Emedia Creative will immediately, post acquisition, commence the process for listing on the ASX.

Established in 1991, Emedia Creative is an award winning multidisciplinary studio of designers and thinkers working with clients across a range of industries to deliver strategic design solutions.

The team has extensive experience in creative design, art direction, marketing and digital design. They're trained in colour, type, form and semiotics, creating successful results that build strong memorable brands.

Following the acquisition, it is intended that Emedia Creative will expand its offering by creating a new business unit specialised in life science and pharmaceutical marketing.

The addition of creative services dedicated to the pharma industry will complement and support the iQ Group Global's offerings more broadly, in particular working hand in hand with another FarmaForce Ltd – a pharmaceutical contract sales organisation recently listed on the ASX.

‘The biotech industry is evolving so rapidly that organic growth alone will not suffice for a business to lead its sector. An acquisition such as this one creates a partnership that provides a point of difference’, stated CEO of The iQ Group Global, Dr George Syrmalis.

“A ground breaking, innovative business such as iQnovate, joining forces with an inspiring and creative media house like Emedia creative, will enable us to communicate the life sciences in a coherent and captivating manner.”

The Corporate Advisor for the acquisition is iQ3Corp. Ltd, and the financing has been structured by iQX Investments Ltd.
